Hey CoinScopeAI, LLC Team,

Welcome to Stable!

This is Sarah + Collin — we're the co-founders of Stable, and we wanted to say that we're so glad you're here!

If you're reading this it means that your Stable address is active, and you just received one of your first pieces of mail.

One of the reasons we started Stable was because of how frustrated we were with physical business mail — in a world that's promised to go digital, managing a business entity is still tedious, cumbersome, and antiquated.

Our hope is that Stable makes these experiences a little more magical.

Moving forward, when you receive a piece of mail, we'll send you a notification like we did for this one. You can always open and scan it for free, and you'll be able to reference the letter anytime in your Stable Dashboard.

Our team is working hard to make Stable the best it can be — as you get oriented, we would love to hear from you about questions, comments, feature requests, etc. We're reachable at priority@usestable.com, a priority support line for our active customers.

Until then, we want to wish you a big welcome to Stable!

Cheers,

Sarah, Collin, and The Stable Team
